

Online Training for Medical Device Professionals

Course Title:

ISO 14155:2011 - Clinical Investigation Close Out

Product ID: 65

Level: CMDA

Duration: 20 mins

SME: Danielle Giroud

First Released On: 10/29/2009

Course Description:

This course explores the requirements for both premature terminations and temporary suspensions of clinical investigations. It also reviews the process of resuming routine clinical investigation close outs.

Watch the Course Trailer:

Learning Objectives:

Upon successfully completing this course, learners will be able to:

- Close down or temporarily suspend a clinical investigation in a given site or throughout all sites involved
- Recognize that documenting all actions is mandatory
- Take into account that the essential documents referred to in Annex E of ISO 14155 must be kept in a traceable manner for a period of time determined by regulatory authorities

Who Should Enroll:

Clinical research associates (monitors), clinical study coordinators, assistant senior clinical research associates, clinical project and data managers, data entry personnel, ethics committee and institutional review board members, regulators, and notified body personnel involved in auditing clinical evaluations are all welcome to participate in this course.

Related Resources: Yes
